**PROSPECTUS**

## *Muhammad (P.B.U.H) Says;*

Acquire knowledge, because he who acquires it, in the way of the Lord, performs an act of piety; who speaks of it praises the Lord; who seeks it, adores God, who dispenses instruction in it, bestows alms; and who imparts it to its fitting objects, performs an act of devotion to God. Knowledge enables its possessor to distinguish what is forbidden from what is not; lights the way to Heaven; it is our friend in the desert, our companion in solitude, our companion, when bereft of friends; it guides us to happiness; it sustains us in misery; it is our ornament in the company of friends; it serves as an armor against our enemies. With knowledge the creatures of Allah rises to the heights of goodness and to noble position, associates with the sovereigns in this world and attains the perfection of happiness in the next.

While working in an educational system I felt a strong need for such a kind of school system in Pakistan that should meet the international standards and retain cultural values as well. I have taken an initiative to implement such system and coming up with the project of “ZCS” Zee Cambridge School System. The vision of “ZCS” is to educate our children with well-planned curriculum designed by highly qualified and creative team to foster the emotional and social development of child along with the strong academic grip which will give them the power of independence at elementary, middle and secondary level. Our youth is no doubt blessed with sharp brain and great talent. The lacking area lies in proper implementation of curriculum and performance evaluation which ensures a true transformation of concepts to the child with creativity. In order to cover this flaw “ZCS” came up with monitoring cell for evaluation and teachers training. I have visualized that there is need of a proper gateway to the road of education, career, professional and personal development. In the current era, quality is paramount and at “ZCS” with no compromise on quality education, our standards facilities and the infrastructure has been designed to meet a child's needs that are of international standards. I feel pride to offer the best services and career guidance in life for professional studies. I can understand that aspiration of a person for studies is for a variety of reasons to improve career prospects, meet intellectual challenges and to pursue long standing interests. I assure that “ZCS” is a perfect match with parent's goals in accomplishing a great qualification, career and life ahead.

## What is ZCSS

- Z- Alphabet is a symbol of hope
- C- Cambridge
- S- School
- S- System

## Introduction

The purpose is to develop such a system of education in Pakistan that will take a "Flower of God's Garden" and after educating, grooming and polishing, prepare them to meet the real challenges of life and to take the nation forward with power of knowledge and education.

ZCSS came in to existence after the efforts of many years in schooling and education sector, after detailed research on the current educational system and organizing conferences and seminars on different platforms with different Scholars and educationist to identify the problems and area of improvement in the educational sector of Pakistan. The collective finding is that there a dire need is to work out from the scratch and focus on earlier age of education.

## **ZCSS is coming up with a project of preschool that is working on**

- Drawing out students' nascent capabilities
- Inviting learned scholars and experienced trainers to train the teachers and interact with the students
- We are providing a creative environment through practical activities in which child can grow mentally as well as physically
- Implementation of Cambridge education according to culture and requirement of Pakistan
- Individual focus of every child

### **Vision:**

We are committed to provide a path of modern and centralized education that will lead a person to approach stars.

### **Mission:**

To create a supportive, challenging environment of true learning that promotes high expectations and success through mental development, effective teaching methodology that encourages for unique differences in thinking and communication styles of human beings. Our school promotes a disciplined, caring, and supportive environment to develop faculties of mind of young stars. We strive to have a close parents- teachers-community interaction to achieve higher goals in pupils' performance.

## ACADEMICS

### Thinking process and recognition of things

“*ZCSS*” starts with reorganization of things and tuning up the thinking process of children. This process leads a child on the path educational learning.

### READING AND WRITING

Pre-schoolers love to try out new ideas over and over again and discover how they work and reading and writing is an exciting time for them. “*ZCSS*” starts with Pre-reading and Pre-writing skills. Pre-reading skills are developed through children's experiences with letters and words in writing stations, art projects, reading books and music. Pre-schoolers are provided with the opportunities to cut with kid-safe scissors, squeeze clay, or explore other materials that develop muscles and coordination necessary to hold a pencil and write.

### NUMERACY AND SCIENTIFIC CONCEPTS

“*ZCSS*” focuses on numeracy and scientific concepts through exercise of practical learning utilizing the Montessori equipment that helps the children to recognize the shapes and learn concepts practically

### PLAY AND SOCIAL LEARNING

A developmental perspective favors learning through play. “*ZCSS*” believes that learning occurs by building on the child's interests, and the social development through play is invaluable for later success in school. Kids who prefer to learn through hands-on interactions are better suited for the developmental approach.

## **INDEPENDENCE AND SELF-HELP SKILLS**

Toddlers go from infant stage of trust to autonomy and then to initiative. This is what they have to do to become independent - develop a sense of self, separate from the parent. These are the developmental stages that lead the child from being part of a mother's body to becoming an individual in the world.

## **ACADEMIC EVALUATION AND EXAM SIMULATION**

"ZCSS" follows the international practices to evaluate the academic performance of a child. Students are evaluated on parameters that measure the conceptual and innovative approach of a child rather than constriction of syllabus coverage.

## **"ZCSS" PRE SKIPPERS UNIT**

Pre Skippers Unit is specially designed for child's earlier stage grooming and counselling that moves a child to a step forward to check point one.

Compliance Initiative by "ZCSS"

"ZCSS" is focusing to maintain the standardize quality of education through proper check and balance in curriculum implementation and connectivity channel of teacher/student in studies.

## **Interactive Learning Unit**

The most prominent step of "ZCSS" is interactive learning that is more helpful in child's earlier stage education for psychological grooming.

## Cross-curriculum Merged With Concepts

### Arts and Technology

To develop the critical and creative power in real life merging of cross-curricular activities with academics is need of current era. “ZCSS” incorporates arts and technology in classrooms through lesson plans to create a better understanding of concepts and stimulate their brain activity. It develops a sense of imagination originality of ideas and the children will ultimately start interpreting themselves.

### Culture based curriculum

Religion and culture are two essences of one's personality. “ZCSS” pays special attention on holistic and spiritual development of children so that they start recognizing the religious and nonreligious norms, values and ethics. “ZCSS” has hired a specialized Islamic team for infesting the religious practices through Islamic stories.

## Consultancy and guidance for parents

“ZCSS” helps the parents to understand the mental and social aptitude of a child to identify the areas which required special attention of parents and teacher to help the children to identify their interests & strengths right from the beginning to become a future leader in their respective chosen field. “ZCSS” conduct parent teachers meetings on regular basis so that parents could get true picture of their child's performance and flaws can be covered in future. Moreover mutual cooperation can be developed among parents and teachers for the bright future of their children through career counseling session.

## Sports and Music

Sports develop the physical strength of a child. “ZCSS” provides sports facilities where children participate under the supervision of trained staff. Music is the source of relaxation of soul. “ZCSS” music teaching faculty equipped with latest musical instruments which make the child feel happy and opens the mind for the learning process.

## Reading and Writing Methodology

Thinking process and recognition of things “ZCS” starts with reorganization of things and tuning up the thinking process of children. For the Reading and writing Preschoolers love to try out new ideas over and over again and discover how they work , Reading and writing is an exciting time for them, “ZCS” starts with Pre-reading and Pre-writing skills. Pre-reading skills are developed through children experiences with letters and words in writing stations, art projects, reading books and music. Preschoolers are provided with the opportunities to cut with kid-safe scissors, squeeze clay, or explore other materials that develop techniques, muscles and necessary to hold a pencil and write.

## CONSULTANCY AND GUIDANCE FOR PARENTS

“ZCS” helps parents to understand the mental and social aptitude of a child to identify the areas which require special attention of parents and teacher to help the children identify their interest & strength right from the beginning in order to become a future leader in their respective fields they choose. “ZCS” conduct parent teacher meetings on regular basis so that parents get true picture of their child performance and flaws can be covered in future. Moreover mutual cooperation can be developed among parents and teachers for the bright future of their children through career counseling sessions.
